**Model 5860
Advanced Combat Helmet
NIJ - Level IIIA Protection**

The Model 5860 ACH ballistic helmet is a streamlined design that provides a balanced-lightweight helmet unsurpassed in comfort and NIJ Level IIIA ballistic protection. The Model 5860 is designed with a higher cut around the forehead, neck and ears.

Utilizing the latest technology in PE ballistic materials, the ACH High Ballistic Helmet was designed to exceed the NIJ Level IIIA protection and optimizing comfort and function for long periods of operation.

Features:

- Superior ballistic, fragmentation, and impact protection, with reduced head borne weight
- Performs in all environmental conditions from -40F to -160F
- Reduce profile optimizes peripheral vision and sensory awareness, not leaving the operator disadvantaged in hostile environments.
- Improved interface with body armor, allowing the user to have a full range of motion, even in the prone position.
- A fully adjustable strap-harness suspension system maximizes stability and comfort.
- Suspension system is field-tested harness retention system designed to provide helmet stability, greater safety, and enhanced comfort.

NIJ 0106.01 Standard- IIIA	Coverage	Weight
